

# ALLUXITY

## Pre Two

The Pre Two is a fully balanced, module based preamplifier with a built in DAC and Streaming capabilities. It features a variety of different digital and analog inputs which are all easily managed through the built in 5inch touch screen.

The chassis is milled of one piece of aluminum and is designed for maximum airflow to help keep the amplifier cool in almost any type of situation.

### Streaming with MCONNECT

Tidal, Qobuz, Apple airplay, Spotify, MQA and NAS Playback.

### DAC

Internal DAC with USB, Optical, AES and S/PDIF inputs.

### Fully relaybased volume

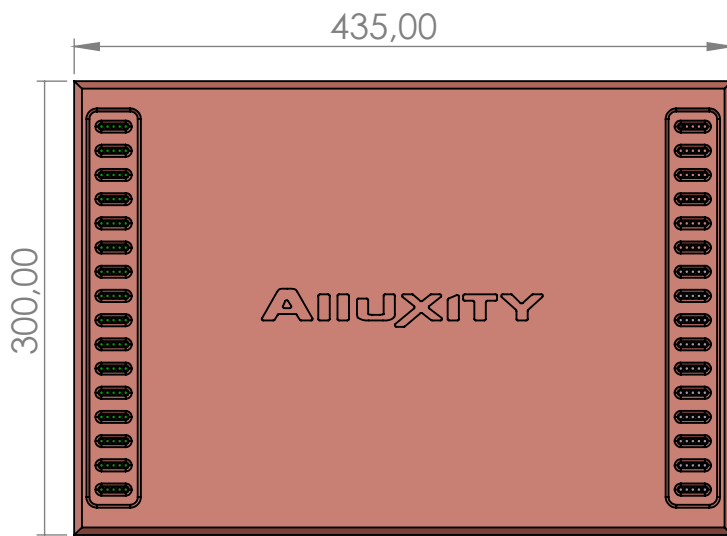

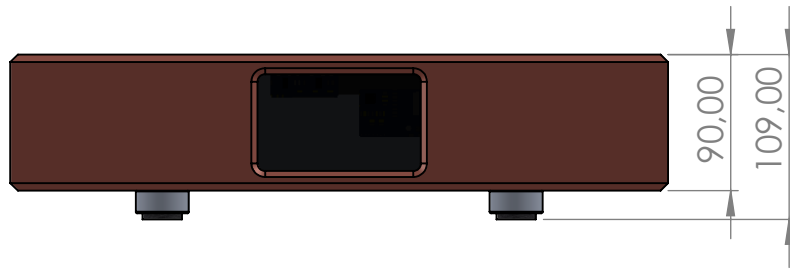

Adjustable from -69db to +12dB in 1db intervals that's adjustable through MCONNECT.

### Additional features

Input sensitivity select and an additional Balanced output for by-amping.
